

## PTF4 High-Capacity Pressure Powered Condensate Pump

The PTF4 has been recognized in the business press for solving the excessive maintenance and energy consumption common to condensate pumps within rapid-cycling process environments and under elevated pressure and temperature conditions.

- Capable of displacing 40,000 lb/hr of condensate in rapid-cycling duty.
- Equipped with dual Pivotrol mechanisms.
- Patented vent assist valve speeds cycling to the max.
- Only 2/3 the size of its predecessor.
- Easy access and servicing.
- Backed by our industry-leading 3x3 standard warranty—3 million cycles or 3 years.
- Available extended 5x5 Pivotrol warranty—5 million cycles or 5 years.
- Proven on the job...still going strong.
